

# BBH1287

## STANDARD SERIES BARITONE

BLESSING®

**ACCESSIBILITY** - A  $\frac{3}{4}$  size design is both easier to manage and more ergonomic for a beginning student. The BBH1287 is more comfortable to hold and transport.

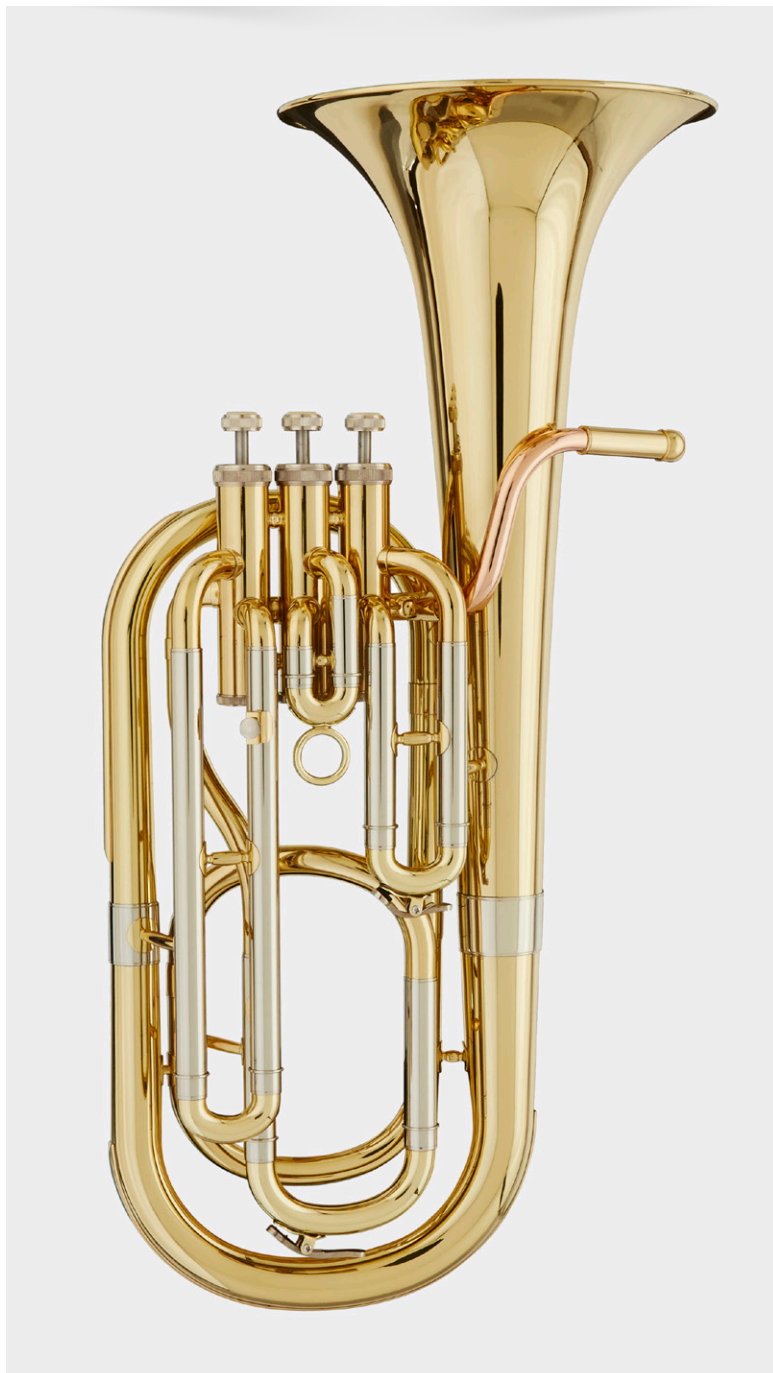

**RELIABILITY** - Smaller in size and mass, the BBH1287 is designed to withstand the early rental years as a student grows into a bigger Euphonium or Tuba.

**PLAYABILITY** - Three top action stainless pistons allow a beginner to develop valve technique early and build a solid foundation in the role of performing in the low brass section in a band.

**SOUND** - The smaller bore and bell size create a full sound with good projection and reliable intonation. The overall playing experience is easy to control for a beginner which builds long term confidence.
